NON-CLASSIFIED POSITION ANNOUNCEMENT

Water Commissioner (Hydrology Technician)

March 29, 2016

The Nevada Department of Conservation and Natural Resources, Division of Water Resources is seeking qualified applicants for the position of Water Commissioner (Hydrology Technician). This is a non-classified, full-time position within the Division of Water Resources located in Carson City, Nevada.

Recruitment: This is an open competitive recruitment, open to all qualified persons. Applications will be accepted until recruitment need is satisfied.

Approximate Annual Salary (DOE):

Employee/Employer Paid Retirement: \$37,292 - \$54,747

Employer Paid Retirement: \$32,719 - \$48,024

This non-classified position serves at the will of the State Engineer. The position is eligible for the State of Nevada Public Employees Benefit Program (PEBP).

The Position: The Hydrology Technician is responsible for assisting in the development of a statewide pumpage database by entering existing data, testing functionality of the interface, and providing assistance to the public. The position is also responsible for reviewing water-level and spring flow data for accuracy and completeness and entering the data into electronic records. Additional responsibilities are to conduct hydrologic field work; assist in the development of water use inventory reports; and participate in other aspects of work conducted by the Hydrology Section.

Skills Required: Must be able to work independently and in a team environment. Must be able to communicate effectively with co-workers and the public. Must be professional, well organized and motivated. Must be willing and able to improve existing skills and develop new ones as required by work assignments. Must have a good driving record and be willing to travel

up to 25% of the work schedule. Must have experience with the Microsoft Office suite of desktop applications. Experience or education in the use of GIS software is desired.

Education and Experience (Minimum Qualifications)

Bachelor's degree from an accredited college or university with major course work in engineering, hydrology, physical sciences or closely related field; **OR** associate degree from an accredited college, university or technical school with major course work in engineering, engineering technology, geographic information systems (GIS), mathematics, physical sciences, or related field and one year of technical experience.
